

LAKE MARY ROAD, LAKE MARY

UPGRADE –STAGE 2

Project Description:	Design and upgrade of the unformed road to a fully functional 5m wide unsealed road with 100mm thick unsealed road pavement from approximate CH 12km to approximate CH 18km.
Reasons for Project:	This project will address a 6km section of Lake Mary Road which has no formation and very difficult to maintain to current unsealed road standards.
Benefits of Project:	Increased safety for road users
Estimated Total Cost:	A total budget of \$700,000.00 has been allocated for the 2019-20 program
Commencement Date:	Works are proposed to start in mid-September 2019
Duration of Project:	Approximately three (3) months, subject to weather and ground conditions
Contact Officer:	Darren Hines, Project Manager
Public Consultation:	Traffic Management signs will be erected and direct communication with residences or property owners that may have periodic driveway access restrictions.
Potential Interruptions:	<p>Interruptions to normal traffic flows during various stages of the works. These interruptions may include;</p> <ul style="list-style-type: none">• Reduced speed through work areas• Single lane flows controlled by Traffic Controllers• Short term full road closures to manoeuvre machinery and trucks <p>Site staff will assist with alternative access arrangements on a day to day basis.</p>
