Veterinary services	The use of premises for: (a) the medical or surgical treatment of animals; or (b) the short-term stay of animals, if the use is ancillary to the use in paragraph (a).		Animal keeping.
Warehouse	The use of premises for: (a) storing or distributing goods, whether or not carried out in a building; or (b) the wholesale of goods, if the use is ancillary to the use in paragraph (a).	Self-storage facility, storage yard.	Hardware and trade supplies, outdoor sales, showroom, shop.
Wholesale nursery	The use of premises for: (a) the wholesale of plants grown on or next to the premises; or (b) selling gardening materials, if the use is ancillary to the use in paragraph (a).		Bulk landscape supplies, garden centre.
Winery	The use of premises for: (a) making wine; or (b) selling wine that is made on the premises.		Rural industry.

### SC1.1.2. Defined activity groups

- (1) This section identifies clusters of land uses otherwise known as activity groups.
- (2) These activity groups are not defined uses; rather they are only a mechanism for clustering uses from the defined uses in SC1.1.1.
- (3) For the purpose of this planning scheme, the clustering of land use definitions into activity groups assists in the following ways:
  - (a) identifying and grouping uses that broadly have similar characteristics;
  - (b) identifying and grouping uses that may be associated with certain zones;
  - (c) improving the readability of the tables of assessment;
  - (d) reducing the length of some performance outcomes contained within codes when broadly referring to a group of uses having similar characteristics.

### SC1.1.3. Industry thresholds

The industry thresholds table below is to be used in conjunction with the use definitions for low impact industry, medium impact industry, high impact industry and special industry as defined in SC1.1.1.

**Table SC1.1.3.1 — Industry thresholds**

Column 1 Use	Column 2 Additional examples include
<b>Low impact industry</b>	<ol style="list-style-type: none"> <li>(1) Repairing and servicing motor vehicles, including mechanical components, radiators, electrical components, wheel alignments, exhausts, tyres, suspension or air conditioning, not including spray painting.</li> <li>(2) Repairing and servicing lawn mowers and outboard engines.</li> <li>(3) Fitting and turning workshop.</li> <li>(4) Assembling or fabricating products from sheet metal or welding steel, producing less than ten (10) tonnes a year and not including spray painting.</li> <li>(5) Assembling wood products not involving cutting, routing, sanding or spray painting.</li> <li>(6) Dismantling automotive or mechanical equipment, not including deboning brake or clutch components.</li> </ol>
<b>Medium impact industry</b>	<ol style="list-style-type: none"> <li>(1) Metal foundry producing less than ten (10) tonnes of metal castings per annum.</li> <li>(2) Boiler making or engineering works producing less than 10,000 tonnes of metal product per annum.</li> <li>(3) Facility, goods yard or warehouse for the storage and distribution of dangerous goods not involving manufacturing processes and not a major hazard facility under the <i>Work Health and Safety Act 2011</i>.</li> <li>(4) Abrasive blasting facility using less than ten (10) tonnes of abrasive material per annum.</li> <li>(5) Enamelling workshop using less than 15,000 litres of enamel per annum.</li> <li>(6) Galvanising works using less than 100 tonnes of zinc per annum.</li> <li>(7) Anodising or electroplating workshop where tank area is less than 400 square metres.</li> <li>(8) Powder coating workshop using less than 500 tonnes of coating per annum.</li> <li>(9) Spray painting workshop (including spray painting vehicles, plant, equipment or boats) using less than 20,000 litres of paint per annum.</li> <li>(10) Scrap metal yard (not including a fragmentiser), dismantling automotive or mechanical equipment including deboning brake or clutch components.</li> <li>(11) Manufacturing clay or ceramic products including bricks, tiles, pipes and pottery goods, less than 200 tonnes per annum.</li> <li>(12) Processing, smoking, drying, curing, milling, bottling or canning food, beverages or pet food, less than 200 tonnes per annum.</li> </ol>

Column 1 Use	Column 2 Additional examples include
	<ul style="list-style-type: none"> <li>(13) Vegetable oil or oilseed processing in works with a design production capacity of less than 1,000 tonnes per annum.</li> <li>(14) Manufacturing wooden products including cabinet making, joinery, wood working, producing less than 500 tonnes per annum.</li> <li>(15) Manufacturing medium density fibreboard, chipboard, particle board, plywood, laminated board or wood veneer products, less than 250 tonnes per annum.</li> <li>(16) Sawmilling, wood chipping and kiln drying timber and logs, producing less than 500 tonnes per annum.</li> <li>(17) Recycling and reprocessing batteries.</li> <li>(18) Repairing or maintaining boats.</li> <li>(19) Manufacturing substrate for mushroom growing.</li> <li>(20) Manufacturing or processing plaster, producing less than 5,000 tonnes per annum.</li> <li>(21) Recycling or reprocessing tyres including retreading.</li> <li>(22) Printing advertising material, magazines, newspapers, packaging and stationery.</li> <li>(23) Transport depot, distribution centre, contractor depot, and storage yard.</li> <li>(24) Manufacturing fibreglass, foam plastic, composite plastic or rigid fibre-reinforced plastic or plastic products, less than five (5) tonnes per annum (except fibreglass boats, tanks and swimming pools).</li> <li>(25) Manufacturing PET, PETE, polypropylene and polystyrene plastic or plastic products, less than 10,000 tonnes per annum.</li> <li>(26) Reconditioning metal or plastic drums.</li> <li>(27) Glass fibre manufacture of less than 200 tonnes per annum.</li> <li>(28) Manufacturing glass or glass products, where not glass fibre, less than 250 tonnes per annum.</li> </ul>
<b>High impact industry</b>	<ul style="list-style-type: none"> <li>(1) Metal foundry producing ten (10) tonnes or greater of metal castings per annum.</li> <li>(2) Boiler making or engineering works producing 10,000 tonnes or greater of metal product per annum.</li> <li>(3) Major hazard facility for the storage and distribution of dangerous goods not involving manufacturing processes.</li> <li>(4) Scrap metal yard including a fragmentiser.</li> <li>(5) Manufacturing clay or ceramic products including bricks, tiles, pipes and pottery goods, greater than 200 tonnes per annum.</li> <li>(6) Processing, smoking, drying, curing, milling, bottling or canning food, beverages or pet food, greater than 200 tonnes per annum.</li> <li>(7) Vegetable oil or oilseed processing in works with a design production capacity of greater than 1,000 tonnes per annum.</li> <li>(8) Manufacturing wooden products including cabinet making, joinery, wood working, producing greater than 500 tonnes per annum.</li> <li>(9) Manufacturing medium density fibreboard, chipboard, particle board, plywood, laminated board or wood veneer products, 250 tonnes or greater per annum.</li> </ul>

## SC1.2. Administrative definitions

- (1) Administrative definitions assist with the interpretation of the planning scheme but do not have a meaning in relation to a use.
- (2) A term listed in Table SC1.2.2 column one has the meaning set out beside that term in column two under the heading.
- (3) The administrative definitions listed here are the definitions for the purpose of the planning scheme.

**Table SC1.2.2 — Administrative definitions**

Column 1 Term	Column 2 Definition
Approved Capital Works Program	The schedule of works and capital costs approved by Council and presented in the Council Budget documents outlined in the Plans for Trunk Infrastructure and associated Infrastructure Schedules.
Accommodation room	<p>A room within a building which provides for accommodation but the room is not self-contained within the scope of the administrative term for 'dwelling'.</p> <p>The term might commonly apply to some of the rooms used for different types of accommodation activities such as a non-resident workforce, rural workers accommodation, or rooming accommodation and the like. In such instances the room provides accommodation for sleeping but other components that are provided for a 'dwelling' (such as food preparation facilities, ablutions, clothes washing facilities and the like) might be located in another communally accessible room.</p>
Active frontage	Frontages that are comprised of shopfronts and ground floor uses that foster a high level of social and business activity on streets and in public places.
Active transport	Non-motorised travel such as walking and cycling.
Adjoining premises	Premises that share all or part of a common boundary. A common boundary may be a single point such as a corner point.
Advertising device	<p>Advertising device:</p> <p>(a) means a permanent sign, structure or other device used, or intended to be used, for advertising; and</p> <p>(b) includes a structure, or part of a building, the primary purpose of which is to support the sign, structure or device.</p>
Affordable housing	Housing that is appropriate to the needs of households with low to moderate incomes.
Ancillary	An activity that is necessarily associated with a defined use or development, but it is incidental and subordinate to the defined use or development.
Annual exceedance probability	<p>The probability of exceedance of a discharge of a given size or larger in any one year (expressed as a percentage).</p> <p>Editor's note: The annual exceedance probability of a discharge event does not give an indication of when a discharge of that size will occur next.</p>
Appearance	In the context of the various zone codes in this planning scheme, appearance encompasses consideration of a combination of the aspects of a place or development which determine the visual impression it makes.
Articulation	The inclusion of design elements to help divide building surfaces (both vertical and horizontal) into distinguishable parts.

Column 1 Term	Column 2 Definition
Average width	In regard to a lot, means the distance, measured in metres, between the midpoint on each side boundary of the lot.
Base date	The date from which the local government has estimated future infrastructure demand and costs for the local government area.
Basement	A space: (a) between a floor level in a building and the floor level that is immediately below it; and (b) no part of which is more than one (1) metre above ground level.
Boundary clearance	The distance between a building or structure on premises and the boundary of the premises, measured from the part of the boundary or structure that is closest to the boundary, other than a part that is: (a) an architectural or ornamental attachment; or (b) a rainwater fitting.  Examples: (a) If the fascia of a building is the part of the building that is closest to the boundary, the boundary clearance is the distance between the outside of the fascia and the boundary. (b) If a point on the roof of a building is the part of the building that is closest to the boundary, the boundary clearance is the distance between that point on the roof and the boundary.
Buffer	An area, structure or physical feature separating a source of potential impact (environmental nuisance, health hazard, safety hazard et cetera) from an area or development sensitive to such impact.
Building envelope	The three-dimensional extent where buildings and associated structures are to be developed within a site, after consideration of limits for height, setbacks, overlay constraints and other similar restrictions.
Building location envelope	The ground location within a site where buildings are to be developed.
Building location envelope plan	A plan which defines the ground location(s) within a site where buildings are to be developed.  The building location envelope: (a) does not include a height component; and (b) is clearly shown on the plan by an area defined by permanent survey marks or by metes and bounds.
Building element	A feature (such as a door, window or cornice) that contributes to the overall design of a building.
Building height	Building height, of a building, means: (a) the vertical distance, measured in metres, between the ground level of the building and the highest point on the roof of the building, other than a point that is part of an aerial, chimney, flagpole or load-bearing antenna; or (b) the number of storeys in the building above ground level.
Building line	The line formed by the frontages of buildings along a street. The building line can be shown on a plan section.
Built form	Form as represented by buildings and structures.
Bulk	When referenced in the context of built form, bulk includes the combined effect of the arrangement, volume and shape of a building or group of buildings. Also

	called massing.  When not referenced in the context of built form, bulk may mean 'large in quantity' or 'large in size, shape, or mass', depending on the context.
Capital works	Infrastructure or other works that ensures the land is suitable for development for its intended purpose.
Carport	Means a Class 10a building, other than a garage, providing covered vehicular parking.
Coastal-dependent development	Means development that requires land adjoining the foreshore and access to tidal water to function.  Examples include ports, harbours, marinas and associated facilities and infrastructure, and a use defined as a landing or port services.
Deep planting	Means planting of large shrubs and trees within the natural ground of the site.
Degree of saturation	The degree of saturation (used in regards to transport modelling) is the arrival flow divided by the entry (absorption) capacity of a lane or intersection.
Demand unit	A unit of measurement for measuring the level of demand for infrastructure.
Depth of a lot	Means either: (a) the dimension at right angles to the road boundary; or (b) the average of the relevant dimensions at right angles to an irregular road boundary.
Developable area	The area of land available for development. It does not include land that cannot be developed due to constraints such as conservation land, flood affected land or steep slope.
Development footprint	Development footprint, for development, means a part of the premises that the development relates to, including, for example, any part of the premises that, after the development is carried out, will be covered by: (a) buildings or structures, measured to their outermost projection; or (b) landscaping or open space; or (c) facilities relating to the development; or (d) on-site stormwater drainage or wastewater treatment; or (e) a car park, road, access track or area used for vehicle movement; or (f) another area of disturbance.
Domestic outbuilding	A non-habitable class 10a building that is: (a) a shed, garage or carport; and (b) ancillary to a residential use carried out on the premises where the building is.
Dwelling	All or part of a building that: (a) is used, or is capable of being used as a self-contained residence; and (b) contains: (i) food preparation facilities; and (ii) a bath or shower; and (iii) a toilet; and (iv) a wash basin; and (v) facilities for washing clothes.
Equivalent person	A unit of measurement used for determining water demand or the quality and/or quantity of sewerage discharge for a person in a detached

Column 1 Term	Column 2 Definition
	house/dwelling.
Equivalent tenement	A property-based unit of measurement used to indicate infrastructure demand. The demand from a property, with a single detached dwelling is 1 Equivalent Tenement (ET).
Facade	The principal face of a building.
Fenestration	The arrangement of windows on a facade.
Fine grain	The quality of an area's layout of buildings and lots having small and frequent subdivisions.
Form	The layout (structure and urban grain), density, scale (height and bulk), appearance (materials and details), and landscape of development.
Fraction impervious	The part of a catchment/site which is the impervious area, expressed as a decimal or percentage.
Gross floor area	The total floor area of all storeys of a building (measured from the outside of the external walls or the centre of a common wall), other than areas used for the following: (a) building services, plant and equipment; (b) access between levels; (c) ground floor public lobby; (d) a mall; (e) the parking, loading and manoeuvring of motor vehicles; (f) unenclosed private balconies whether roofed or not.
Gross leasable floor area	The total floor area of all storeys of a building that are leasable for use as part of a shopping centre.
Ground level	The level of the natural ground, or, if the level of the natural ground has changed, the level as lawfully changed.
Household	One (1) or more individuals who: (a) live in a dwelling with the intent of living together on a long-term basis; and (b) make common provision for food and other essentials for living.
Impervious area	A surface or area within a stormwater drainage catchment where the majority of rainfall will become runoff (no infiltration).
Landscape	The appearance of land, including its shape, form, colours and elements, the way these (including those of streets) components combine in a way that is distinctive to particular localities, the way they are perceived, and an area's cultural and historical associations.
Landscape gardening purposes	Means work undertaken in relation to vegetation located within the curtilage of a dwelling, or within the garden or approved building location envelope of other approved buildings and structures on a lot which include: (a) planting, pruning, cutting, shaping and removing trees, shrubs, grass and other plants.
Legibility	The degree to which a place can be easily understood by its users and the clarity of the image it presents to the wider world.
Lot volume	The lot volume is a three-dimensional area within a lot, comprised of the lot area multiplied by the height limit applicable to the lot as expressed in a zone code. The height limit applicable to the lot is to be determined based on the height limit for buildings (other than a Class 10a building under the Building Code of Australia) as expressed in an acceptable outcome for the zone code

Matters of environmental significance	Matters of environmental significance is an all-encompassing reference to matters of national environmental significance, matters of State environmental significance, and matters of local environmental significance. Areas that are known to contain matters of environmental significance or which may contain matters of environmental significance are identified on the series of planning scheme biodiversity overlays.
Matters of local environmental significance	Matters of local environmental significance means local government environmental matters determined to be locally significant and needing protection and management under the planning scheme. These environmental matters may have values which are significant or important in the local government planning scheme area.
Matters of national environmental significance	<p>Matters of national environmental significance means the following matters which are protected under the <i>Environment Protection and Biodiversity Conservation Act 1999</i>:</p> <ul style="list-style-type: none"> <li>(a) world heritage properties;</li> <li>(b) national heritage places;</li> <li>(c) wetlands of international importance (often called 'Ramsar' wetlands after the international treaty under which such wetlands are listed);</li> <li>(d) nationally listed threatened species and ecological communities;</li> <li>(e) listed migratory species;</li> <li>(f) Commonwealth marine areas; and</li> <li>(g) The Great Barrier Reef Marine Park.</li> </ul> <p>Actions that have or are likely to have a significant impact on a matter of national environmental significance may require approval from the relevant Australian Government Minister for the Environment under the <i>Environment Protection and Biodiversity Conservation Act 1999</i>.</p>
Matters of State environmental significance	<p>Matters of state environmental significance are a component of the biodiversity state interest.</p> <p>Matters of state environmental significance include the following:</p> <ul style="list-style-type: none"> <li>(a) protected areas (including all classes of protected area except coordinated conservation areas) under the Nature Conservation Act 1992;</li> <li>(b) marine parks and land within a 'marine national park', 'conservation park', 'scientific research', 'preservation' or 'buffer' zone under the Marine Parks Act 2004;</li> <li>(c) areas within declared fish habitat areas that are management A areas or management B areas under the Fisheries Regulation 2008;</li> <li>(d) threatened wildlife under the Nature Conservation Act 1992 and special least concern animal under the Nature Conservation (Wildlife) Regulation 2006;</li> <li>(e) regulated vegetation under the Vegetation Management Act 1999;</li> <li>(f) high preservation areas of wild river areas under the Wild Rivers Act 2005;</li> <li>(g) wetlands in a wetland protection area or wetlands of high ecological significance shown on the Map of Referable Wetlands under the Environmental Protection Regulation 2008;</li> <li>(h) wetlands and watercourses in high ecological value waters as defined in the Environmental Protection (Water) Policy 2009, schedule 2; and</li> </ul>

	<ul style="list-style-type: none"> <li>(i) legally secured offset areas; and</li> <li>(j) a designated precinct in a strategic environmental area under the <i>Regional Planning Interests Regulation 2014</i>, schedule 2, s15(3).</li> </ul>
Mean height	Mean height, of a building or structure, means the vertical height worked out by dividing the total elevational area of the wall of a building or structure facing the boundary by the horizontal length of the building or structure facing the boundary.
Minor building work	An alteration, addition or extension to an existing building(s) which results in an increase in the gross floor area of the building(s) of less than five (5) percent of the gross floor area of the existing building(s) or fifty (50) square metres, whichever is the lesser.
Minor electricity infrastructure	<p>All aspects of development for an electricity supply network as defined under the <i>Electricity Act 1994</i>, (or for private electricity works that form an extension of, or provide service connections to properties from the network), if the network operates at standard voltages up to and including 66kV.</p> <p>This includes:</p> <ul style="list-style-type: none"> <li>(a) augmentations/upgrades to existing powerlines where the voltage of the infrastructure does not increase;</li> <li>(b) augmentations to existing substations (including communication facilities for controlling works as defined under the <i>Electricity Act 1994</i>) where the voltage of the infrastructure does not increase, and where they are located on an existing substation lot.</li> </ul>
Net developable area	<p>The area of the premises that:</p> <ul style="list-style-type: none"> <li>(a) is able to be developed; and</li> <li>(b) is not subject to a development constraint, including, for example, a constraint relating to acid sulfate soils, flooding or slope.</li> </ul> <p>Note—for the purpose of a local government infrastructure plan, net developable area is usually measured in hectares, net developable hectares (net dev ha).</p>
Netserv plan	A distributor-retailer's plan about its water and wastewater networks and provision of water service and wastewater service pursuant to section 99BJ of the <i>South East Queensland Water (Distribution and Retail Restructuring) Act 2009</i> .
Non-resident worker	<p>A person who:</p> <ul style="list-style-type: none"> <li>(a) performs work as part of: <ul style="list-style-type: none"> <li>(i) a resource extraction project; or</li> <li>(ii) a project identified in a planning scheme as a major industry or infrastructure project; or</li> <li>(iii) a rural use; and</li> </ul> </li> <li>(b) lives, for extended periods, in the locality of the project, but has a permanent residence elsewhere.</li> </ul> <p>An example of a non-resident worker is a person engaged in fly-in/fly-out, or drive-in/drive-out, working arrangements.</p>
Open carport	<p>Means a carport with:</p> <ul style="list-style-type: none"> <li>(a) two sides or more open, and a side is also considered open where the roof covering adjacent to that side is not less than 500 millimetres from another building or a side or rear lot boundary; and</li> <li>(b) not less than one-third of its perimeter open.</li> </ul>
Outermost projection	Outermost projection, of a building or structure, means the outermost part of the building or structure, other than a part that is:

Column 1 Term	Column 2 Definition
	<p>(a) a retractable blind; or</p> <p>(b) a fixed screen; or</p> <p>(c) a rainwater fitting; or</p> <p>(d) an ornamental attachment.</p> <p>Editor's note: The outermost projection of a building or structure is a reference point in three-dimensional space.</p>
Outermost projection height	Outermost projection height, for a building or structure, means the vertical distance between any point of the building or structure at its outermost projection, and the ground level directly below that point.
Planning assumption	An assumption about the type, scale, location and timing of future growth in the local government area.
Primary road frontage	The boundary of the lot aligned with the road from which the street address is allocated.
Plot ratio	The ratio of the gross floor area of a building on a site to the area of the site.
Projection area(s)	A part of the local government area for which the local government has carried out demand growth projection.
Public realm	The parts of a village, town or city (whether publicly or privately owned) that are available, without charge, for everyone to use or see, including streets, squares and parks. Also called the public domain.
Riparian corridor	That part of the landscape adjacent to watercourse and waterbodies that exert a direct influence on the stream or lake margins, and on the water and aquatic ecosystems contained within them, including the stream banks and a variable width belt of land alongside the banks/shore.
Secondary dwelling	A dwelling, whether attached or detached, that is used in conjunction with, and subordinate to, a dwelling house on the same lot.
Secondary road frontage	Any road frontage boundary of a lot, which is not the primary road frontage.
Sensitive land use	Sensitive land use as defined in the Queensland Planning Regulation 2017.
Service catchment	An area serviced by an infrastructure network.
Setback	<p>Setback, for a building or structure, means the shortest distance, measured horizontally, between the outermost projection of the building or structure to the vertical projection of the boundary of the lot where the building or structure is.</p> <p>Setback may be referenced in other contexts in this planning scheme. In such instances it is commonly referring to a separation distance measured horizontally from one thing to another.</p> <p>Note for example:</p> <ul style="list-style-type: none"> <li>the setback may refer to a minimum separation distance between two different land uses; or</li> <li>the setback may refer to a minimum separation distance between a land use and a natural hazard area or matter of environmental significance; or</li> <li>the setback may refer to a minimum separation distance between a building or structure and a natural hazard area or matter of environmental significance.</li> </ul>
Site	<p>Site, of development, means the land that the development is to be carried out on.</p> <p>Examples:</p> <p>(a) If development is to be carried out on part of a lot, the site of the development is that part of the lot.</p> <p>(b) If development is to be carried out on part of one (1) lot and part of an</p>

Column 1 Term	Column 2 Definition
	adjoining lot, the site of the development is both of those parts.
Site cover	<p>Site cover, of development, means the portion of the site, expressed as a percentage, that will be covered by a building or structure, measured to its outermost projection, after the development is carried out, other than a building or structure, or part of a building or structure, that is:</p> <ul style="list-style-type: none"> <li>(a) in a landscaped or open space area, including, for example, a gazebo or shade structure; or</li> <li>(b) a basement that is completely below ground level and used for car parking; or</li> <li>(c) the eaves of a building; or</li> <li>(d) a sun shade.</li> </ul>
Statistical Local Area	An Australian Standard Geographical Classification defined area.
Storey	<p>A storey:</p> <ul style="list-style-type: none"> <li>(a) means a space within a building between two floor levels, or a floor level and a ceiling or roof, other than: <ul style="list-style-type: none"> <li>(i) a space containing only a lift shaft, stairway or meter room; or</li> <li>(ii) a space containing only a bathroom, shower room, laundry, toilet or other sanitary compartment; or</li> <li>(iii) a space containing only a combination of the things stated in subparagraph (i) or (ii); or</li> <li>(iv) a basement with a ceiling that is not more than one metre above ground level; and</li> </ul> </li> <li>(b) includes: <ul style="list-style-type: none"> <li>(i) a mezzanine; and</li> <li>(ii) a roofed structure that is on, or part of, a rooftop, if the structure does not only accommodate building plant and equipment.</li> </ul> </li> </ul>
Streetscape	The combination of natural and built elements in or near the street, including buildings, building setbacks, yards, roads, footpaths, street furniture, street trees, signs, street lights, transportation amenities, and public art.
Temporary use	<p>A use that:</p> <ul style="list-style-type: none"> <li>(a) is carried out on a non-permanent basis; and</li> <li>(b) does not involve the construction of, or significant changes to, permanent buildings or structures.</li> </ul>
Third party advertising	Any permanent device that advertises goods or services that are not sold, conducted, available, or the like, on the site on which the advertising device is located.
Trips	The number of trips generated from a traffic district between a generator and attractor (or from origin to destination) as a single trip.
Ultimate development	The realistic extent of development anticipated to be achieved when a site (or projection area or infrastructure service catchment) is fully developed.
Urban purposes	For the purpose of local government infrastructure plans, urban purposes includes residential (other than rural residential), retail, commercial, industrial, community and government related purposes.
Urban activities	For the purpose of the planning scheme, urban activities is a broad reference to the majority of defined uses that are intended for location in an urban zone or which generally require access to urban infrastructure networks and other services. These uses are clustered within the following defined activity

Column 1 Term	Column 2 Definition
	categories: accommodation activities; business activities; community activities; entertainment activities; industrial activities; recreation activities; and special activities.
Unacceptable risk	A situation where people or property are exposed to a predictable hazard event that may result in serious injury, loss of life, failure of community infrastructure, or property damage that would make a dwelling unfit for habitation or development unfit for occupation.
Vernacular	The way in which ordinary buildings were built in a particular place before local styles, techniques and materials were superseded by imports.
Visual clutter	The uncoordinated arrangement of street furniture, advertising devices, signs and other features.
