Additional anticipated growth (compared to growth in base year)																
2017/2018	\$2,732,000															
2018/2019	\$1,303,000															
2019/2020	\$2,412,000															
2020/2021	\$6,152,000															
2021/2022	\$6,722,000															
5 year average revenue	\$3,864,200															
Methodology																
For the purpose of the model, it was assumed that revenue over the 15-year term of the LGIP would be consistent with the average annual revenue received by Council in the five (5) years to June 30, 2022. The infrastructure charges revenue was obtained for five (5) years from 2017/18 to 2021/22 and calculated into an average (adopted rate). Indexation has been applied to the adopted rate to reflect the increase to the maximum adopted charge (being estimated at 1.25% per annum).																
Starting balance: infrastructure charges revenue reserves																
	\$17,712,539															

Methodology																
The infrastructure charges reserves held by Council was \$17,712,539 at the end of the 2021 financial year. For the purpose of the model, this amount has been added to the detailed cashflow (Starting Balance) included in the schedule of works model.
