
PART 5 - INFRASTRUCTURE PLANNING AND FUNDING

The Livingstone Shire Council does not currently have a Local Government Infrastructure Plan (LGIP). Until such time as a LGIP is adopted, Council's Adopted Infrastructure Charges Resolution (No. 2) LSC 2015 (or an adopted updated version) will be utilised to establish infrastructure charges in the Livingstone Shire Council local government area for the following trunk infrastructure networks:

- water supply network;
- sewerage network;
- transport network;
- stormwater network; and
- public parks and land for community facilities.

Please refer to [Council's website](#) for a copy of the Adopted Infrastructure Charges Resolution (No. 2) LSC 2015 (or an adopted updated version).
